

GET TO KNOW ASME: THE MEMBERSHIP THAT BUILDS YOUR FUTURE

When you're a member of ASME (The American Society of Mechanical Engineers), a not-for-profit professional organization, you are part of a community of engineers, academics, and researchers committed to developing solutions to real-world challenges. With a global network of over 90,000 members in 135+ countries, ASME is the most important connection a mechanical engineer can make.

"I am proud to be associated with ASME because it is internationalized, stimulating and innovative. It also draws various world-class engineers to your doorstep as a network of professionals."

*- Victor I-E.,
student member*

"Over the years I've met really fascinating people while also expanding my personal and professional network. **The connections I get at ASME help me stay in tune with the latest industry trends.**"

*- Jennifer Herron,
member since 2013*

EXPLORE THE BENEFITS OF BELONGING

As a student member, there's no better time to jump in and take advantage of all the exclusive benefits you need to jumpstart your career.

Unlimited access to valuable publications, technical resources and industry news

Stay in the know with perks like Mechanical Engineering magazine, ASME SmartBrief daily email digests, TechDesign and TechReboot weekly insights and curated articles. Students can also tap into AccessEngineering, an online reference tool with over 800 essential titles and interactive graphs, to help solve the toughest engineering problems.

Career advancement and mentorship opportunities

Find job postings, internships, career fairs, resume review, career development webinars, and other guidance in the ASME Career Center; plus, ASME's Mentoring Program puts you in touch with leaders to get insights from an experienced professional.

ASME E-Fests and EFX student competitions

Develop new skills by collaborating with peers and competing against the best and brightest.

Financial aid and scholarship opportunities

Discover how ASME sponsored programs can help subsidize your education.

Network online or on campus

Tap into the experience of engineering professionals during monthly webinars including, the TEC Talk series which takes a detailed look at specific subjects, and the Day in the Life series offering a glimpse into real engineering careers. Prefer to meet with fellow students in person? Take advantage of on campus activities like section meetings led by student volunteers and special events.

Exclusive student discounts

Take advantage of discounts on conferences, publications, merchandise, and more.*

Enjoy affordable membership dues for all students and free membership for freshman.
